Midcom

Job Title Field Applications Engineer - Electro-mechanical and Interconnect Products

Location Rutherford, NJ

Department Engineering

Reports To Vice President of Sales

Position Purpose

Provide technical support to cross reference product and respond to technical questions. Support sales staff in the process to sell business goods or services, the selling of which requires a technical background.

Position Duties

- Support customers on definition of products and assist in answering technical questions.
- Cross reference product for customer or sales staff.
- Collaborate with sales teams to understand customer requirements, to promote the sale of company products, and to provide sales support.
- Train team members in the customer applications of electro-mechanical and interconnect products.
- Provide technical and non-technical support and services to clients or other staff members regarding the use and operation of our products.
- Develop and enhance current knowledge of electro-mechanical and interconnect products.
- Develop new technical training presentations for both internal and external customers.
- Prepare and deliver technical presentations that explain products or services to customers and prospective customers.
- Keep informed on industry news and trends, products, services, competitors, relevant information about legacy, existing, and emerging technologies, and the latest product-line developments.
- Attend trade shows and seminars to promote products or to learn about industry developments.
- Provide technical assistance in the research of new markets and technology applicable in our industry.

Education and Experience

- BS in Electrical or Mechanical Engineering or equivalent
- 3 to 5 years experience
- Extensive travel may be required
